11. Employment Record

From: 2018 To: Present

Employer: Basque Centre of Climate Change BC3.

Position: Climate Change research.

Currently working at BC3 (Basque Centre of Climate Change) participating and/or coordinating different Regional, National and European projects on urban adaptation and mitigation strategies to climate change. Meanwhile, she is also carrying out her PhD studies looking on how to mainstream climate resilience into municipal policies and urban planning. This PhD studies are under the direction of the International University of Barcelona (UIC), and co-direction of BC3.

From: 2015 To: 2018

FreeLancer Consultant.

For three years she worked as a freelance consultant for public administrations, research centers, companies and private consultants, in European, national and city projects, mainly related to climate change adaptation and sustainable urban planning. Developing urban and regional strategies and plans in the field of climate change adaptation, such as Balears Islands Adaptation Strategy, Adaptation Plans of Valencia and Balmaseda.

From: 2007 **To: 2015**
Employer: Bilbao City Council
Position: Adviser of the Municipal Government of Bilbao City

She has worked as a support and coordination of municipal government of Bilbao in different projects related to sustainability, climate change, regeneration and urban innovation policies.

Besides she led the Climate Office of Bilbao (BIO), which has allowed her to know first-hand needs and opportunities presented by climate change in territorial and urban planning. And she participated in the elaboration in KLIMA 2050, Strategy of Climate Change of Euskadi, which has allowed her to know first-hand the needs and opportunities presented by the adaptation in territorial and urban planning. It must be emphasized that she has coordinated and was responsible for implementing the sustainable energy action plan in Bilbao (SEAP), in the European Covenant of Mayors initiative.

She has also had the opportunity to participate in different European projects of programs, such as Horizon 2020, Urban Innovation Actions and LIFE programs, related to adaptation and sustainable urban planning.

She also worked in the field of urban planning and territorial planning, must highlight the participation in the revision of the Master Urban Plan of Bilbao, specific modifications of the Master plan, urban Ordinances and strategic urban planning plans, such as Zorrozaurre, Bolueta, Punta Zorroza in Bilbao among others.

From: 2005 **To: 2007**
Employer: Sestao Berri 2010
Position: Director of SESTAO BERRI 2010. (Basque Government Public Society)

Development of the specific tasks of the overall management such as: management of the correct operation of the society, development of strategic plans, bidding processes, urban planning and planning, budgetary and results management, council preparation, reports, coordination of teams, institutional relations, management and negotiation with companies and private companies, and other actions inherent to the Society.

From: 2004 **To: 2005**
Employer: ORUBIDE
Position: Substitute Director of Urban Land Management ORUBIDE. (Basque Government Public Society)

Development of the specific tasks of the overall management such as Procurement processes, land search, negotiation with out-of-management and proprietary industries, urban management of plots and land, interlocution with owners, preparation of contracts, reports, etc.

From: 2000 **To: 2004**
Employer: Moragues+Acebes+Scade (M+A+S)
Position: Urban Planner and Environmental lawyer

Development of the professional work of law and consultancy in the field of urban sustainable planning for the main public administration and industries of the Basque Country.

11. Selected Tasks Undertaken in Last 10 years

<p>1.-Detailed Tasks Assigned Climate Change research and Urban Development Expert</p>	<p>Work Undertaken that Best Illustrates Capability to Handle the Tasks Assigned</p> <p>Name of assignment or project: LIFE URBAN KLIMA 2050". Systemic implementation of the CC action in the Basque Country for increased urban resilience as full territory enabler. Year: 2019-2025 Location: Basque Country Client: European Commission Main project features: The main objective of URBAN KLIMA is to propose actions encompassing both adaptation and mitigation, meant to radically improve the resilience of the Basque Country to Climate Change. Facilitating good adaptation in urban areas. Year: 2016-19 Location: Basque Country Client: European Commission Main project features: The main aim of the LIFE GOOD LOCAL ADAPT project is to adopt sustainable solutions for urban areas for adapting to heat waves and water scarcity. The project encourages complementarity between public and private initiatives in small- and medium-size municipalities that are less advanced in terms of mainstreaming adaptation into their policies. The project promotes the adoption of innovative technologies and traditional solutions that contribute to mitigating the effects of heat and an adapted management of water resources. Positions held: Technical expert</p>
--	--

	<p>Activities performed: All aspects related with the development of the project</p>
<p>6. Detailed Tasks Assigned Climate change and urban development expert</p>	<p>Work Undertaken that Best Illustrates Capability to Handle the Tasks Assigned</p> <p>Name of assignment or project: Valencia's Climate Change Adaptation plan. Year: 2016-17 Location: Valencia Client: Valencia City Council Main project features: Adaptation of Climate Change Plan of Valencia Positions held: Technical expert Activities performed: Responsible of the analysis and strategy of adaptation to climate change in the sector of land management and urban planning of Valencia</p>
<p>7. Detailed Tasks Assigned Climate change and urban development expert</p>	<p>Work Undertaken that Best Illustrates Capability to Handle the Tasks Assigned</p> <p>Name of assignment or project: Balears Island Adaptation Strategy Year: 2015-16 Location: Balears Islands Client: Balears Islands Regional Government Main project features: Analysis of the climate risks and impacts of the Balearic Islands and roadmap to adapt to the effects of the CC. Positions held: Technical expert Activities performed: Responsible of the analysis and strategy of adaptation to climate change in the sector of land management and urban planning of Balears Islands</p>
<p>8. Detailed Tasks Assigned Climate change and urban development expert</p>	<p>Work Undertaken that Best Illustrates Capability to Handle the Tasks Assigned</p> <p>Name of assignment or project: Climate Change Strategy of the Basque Country Year: 2014-15 Location: Basque Country Client: Basque Government Main project features: KLIMA 2050 Strategy set out 9 goals and a plan of action up to 2020 with 70 measures to direct action to address adaptation. All Ministries of the Basque Government share it. It will demonstrate how well coordinated climate plans and strategies can be implemented across an entire territory with over 2 million inhabitants, across a multi-level administration network. One of the main objectives of the strategy is to radically increase the resilience of the Basque Country to climate change. All the ministries of the Basque Government have been involved in defining and drafting the strategy in order to integrate all the climate change sectoral policies into a single planning instrument. They will all be responsible for implementing it in their respective policy areas. The KLIMA 2050 strategy has been designed as a crosscutting tool of the Basque Country and is closely linked with the three provinces and their municipalities. KLIMA 2050 is an umbrella benchmark for all sectoral plans and policies across the Government that have an impact on climate change. It draws together existing policy and programs under a single</p>

	<p>vision and aligns all future effort at the state and local level towards mitigating and adapting to climate change. It sets a 35-year timeframe and in doing so, is an embodiment of the 'climate change mainstreaming' that has been discussed in Europe for a decade. All activities will have a climate consideration, regardless of which part of government it is coming from.</p> <p>Positions held: Technical expert from Bilbao City Council</p> <p>Activities performed: Responsible for the participation of the Bilbao city council in the development of the strategy and an active part of the strategy monitoring committee</p>
